

THE AUTOMATIC POWER RUNNING BOARD

- ⦿ Power Step is an electric running board that extends downward when door opens and quickly retracts when door closes.
- ⦿ Sturdy box steel arms handle a load capacity of 600 lbs. per side.
- ⦿ Quickly and quietly extends to a convenient stepping height in about one second.
- ⦿ Heavy-duty, weatherproof motor with anti-pinch technology assures safety and year-round dependability.
- ⦿ The Power Step kit includes two side steps, wiring, hardware, motors and instructions (professional installation recommended).
- ⦿ Factory original quality, corrosion-resistant components with 3-year limited warranty.
